

3.5mm Male to Female Panel Mount Audio Cable

Description:

FARSINCE High Quality 3.5mm Male to Female Panel Mount Audio Cable is the perfect solution for combining two 3.5mm cables to create a connection through the panel. This allows users to provide audio connections from sources contained in a secure location. The cable is short and designed to minimize signal loss. High-quality materials and construction ensure a lifetime of reliable performance. Suitable for portable CD players, PC sound cards, multimedia speakers, MP3 players, etc.
